CERAMIC GUARD

CERAMIC GUARD

MALWAX

Most people protect their phones in various ways – with glass, film, a case, or insurance.

And what about your car, which could be many times more expensive than your phone?

External factors, bird droppings, acid rain, and other **contaminants it is often exposed to certainly don't benefit it.**

DO YOU WANT TO **MAINTAIN THE CONDITION** AND **VALUE** OF YOUR TRAVEL COMPANION,
SO IT LOOKS AS GOOD AS NEW EVEN AFTER 10 YEARS?

MALWAX

NANO-CERAMIC PROTECTION

CERAMIC GUARD

LITERALLY LONG-LASTING PROTECTION WITH A **3-YEAR WARRANTY**

WITH THE POSSIBILITY OF LASTING UP TO 10 YEARS!

MALWAX

HOW DOES IT WORK?

WITHOUT PROTECTION

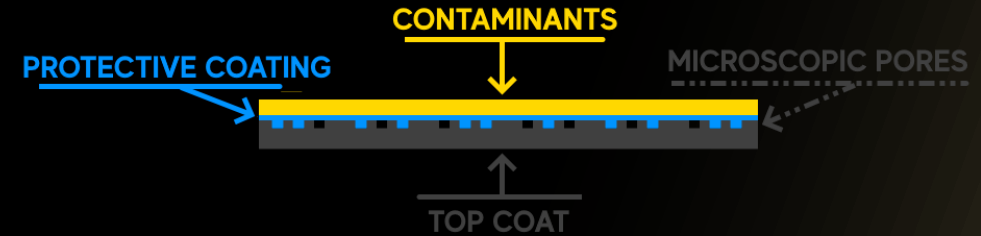

Pollution and contaminants get trapped **in the microscopic pores of the paint**, where **additional dirt gradually adheres to them**. Prolonged exposure to these impurities **leads to the degradation and damage** of the paint.

In such a condition, **faster contamination occurs, leading to surface degradation, corrosion, or other irreversible damage**.

In many cases, a **standard touchless car wash is not enough** – after washing and drying the vehicle, **contaminants remain trapped in the pores** of the paint.

WITH A PROTECTIVE COATING

The nano-ceramic coating **creates a smooth, protective shield** that **seals the microscopic pores** of the paint and **prevents the buildup of dirt and contaminants**.

Thanks to this barrier, the vehicle's surface becomes more resistant to contamination, UV rays, chemicals, and mechanical damage.

The protective layer makes washing easier and reduces dirt adhesion, meaning the paint retains its **smooth surface, deep shine, and long-lasting protection**.

With nano-ceramic protection, **regular vehicle maintenance becomes easier, faster, and more efficient**, while **the surface remains clean and protected for an extended period**.

LIFESPAN
AND
WARRANTY

AS **CERTIFIED CERAMIC GUARD SPECIALISTS**, WE PROVIDE A FULL **3-YEAR** STANDARD **WARRANTY** WITH THE OPTION FOR **ANNUAL EXTENSIONS!**

WE TAKE GREAT CARE IN THIS, WHICH IS WHY, IN **ADDITION TO THE USUAL PROCEDURES** FOR **BETTER EFFECTIVENESS**, WE **BAKE THE PROTECTIVE NANO-COATING**, THANKS TO THIS, **WE EXTEND ITS LIFETIME BY APPROXIMATELY 7 % AND INCREASE WATER REPELLENCY BY APPROXIMATELY 3 %.**

MALWAX

LIFESPAN
AND
WARRANTY

THE LIFESPAN DOESN'T END AFTER THE WARRANTY!

AFTER THE WARRANTY PERIOD, CUSTOMERS CAN **VISIT US ANNUALLY FOR MAINTENANCE** AND INSPECTION OF THE PROTECTIVE COATING.

THIS STEP ALSO **REPLACES EXHAUSTED OR DAMAGED PARTS OF THE PROTECTIVE LAYER** AND **STRENGTHENS ITS ORIGINAL STRUCTURE**. AS A RESULT, **THE LIFESPAN IS EXTENDED BY ANOTHER YEAR**, DEPENDING ON MILEAGE AND CONDITIONS.

WE HAVE THE SHINE, BUT WHAT ABOUT COMFORT?

COATING MAINTENANCE

**You don't have to keep track of dates,
we will remind you in time for the annual maintenance.**

For better tracking, each renewal will be recorded in your maintenance booklet, which you will receive after the application, along with a warranty sticker featuring a unique number that matches the one in the door jamb.
