NANO-COATING

NANO-COATING

**MALWAX**

**Limescale, stubborn stains, and other difficult-to-clean contaminants will no longer be a concern after just one step.**

**The nano-ceramic application** creates a **protective layer** on the surface that not only makes **cleaning easier** but also significantly **extends the lifespan of your** bathroom **surfaces**.

**Tiles, sinks, toilets, and other surfaces** will enhance both comfort and aesthetics – **you won't have to deal with stubborn stains** or deposits using **harsh chemical cleaners**.

This protection is resistant to **limescale, soap scum, and other impurities, saving you time and effort in maintenance.**

**MALWAX**

NANO-CERAMIC COATING

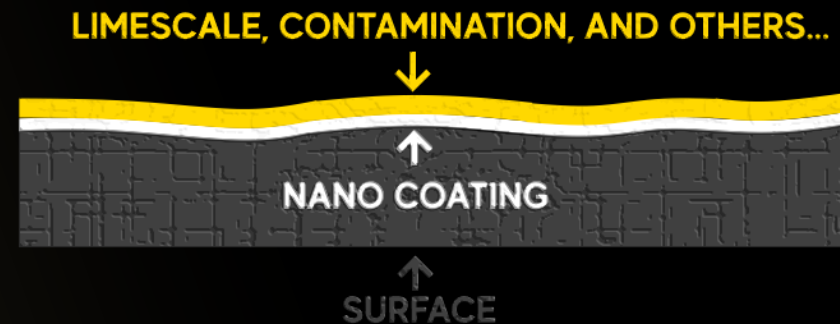

IN HOUSEHOLDS

**EFFECTIVENESS** NOT ONLY IN **CLEANLINESS AND LIFESPAN**, BUT ALSO IN **COMFORT AND SIMPLIFIED MAINTENANCE!**

MALWAX

# HOW DOES IT WORK?

Thanks to the **nano-coating**, the surface becomes **pleasantly smoother** to the touch, and due to its properties, any **contamination** tends to attach to the nano-coating and **less deeply penetrate the surfaces**. In this case, the **surface has lower adhesion**, making it **easier to remove dirt**, and **you won't need to use aggressive or non-eco-friendly cleaning agents**.

MALWAX

# LIFESPAN

**The lifespan of such a coating can reach up to 6 years.**

**The coatings are suitable for various types of materials**, such as glass surfaces, marble and tiles, sinks, toilets, and plastics.

**The surface** is optimally **protected** against dirt, salts, UV radiation, and **aggressive chemicals (pH2 to pH13)**.

Durability depends on the cleaning and chemical products used.

**Abrasion resistance:** The nano-coating **resists** wear up to the **roughness** of sandpaper **2000**.

**Easy coating maintenance:** In case of damage, the affected area can be treated with an additional layer in the shortest time, **filling in the damaged parts**.

WE HAVE THE SHINE, BUT WHAT ABOUT COMFORT?

## SURFACE PREPARATION

In order for the coating to last the specified lifespan, it is important to properly prepare the surface. This means that the surfaces must be degreased and cleaned from all dirt.

You don't have to worry about having to do the cleaning yourself.

**WE WILL HANDLE THE CLEANING AND SURFACE  
PREPARATION FOR YOU!**

# BENEFITS OF MALWAX s.r.o.

## PROPERTIES AND VEHICLES UNDER ONE ROOF:

Simply time-saving – Instead of coordinating various suppliers, we handle everything for you.

## QUALITY AND RELIABILITY:

We build the brand – Our services focus on luxury standards, long-term results, and trustworthiness.

## EXCLUSIVE BENEFITS FOR YOUR CUSTOMERS:

In collaboration with us, they will have the opportunity to receive exclusive discounts or gift vouchers, which is not only an attractive advantage for them but also for you and your competitiveness.

# OUR EXCEPTIONALITY

## FIRST IN THE MARKET WITH WEB CONFIGURATORS

No calls or inquiries – Visit the website, select your options, instantly receive an estimated quote, and confirm if you agree.

## DIGITAL LOYALTY PROGRAMS

No paper, no leaflets – everything, including gift vouchers, can be managed with just a smartphone.

## AMONG THE FIRST IN THE CZECH REPUBLIC

Our cleaning services include the application of NANO coatings for easier maintenance of cleanliness in bathrooms and other spaces, whether it's for simplifying limescale removal or the entire cleaning process.

## WARRANTY WITH CERTIFICATES

As mentioned above, we are building a brand focused on providing a positive experience. We believe in what we do and how we do it. Thanks to our expertise, training, and methods, we offer full warranties.
